EVgo and Regency Expand National Partnership to Bring Fast Charging to More Retail Centers Across the U.S.

September 9, 2026

More than 400 charging stalls to be added to grocery-anchored Regency properties nationwide

LOS ANGELES, Sept. 09, 2026 (GLOBE NEWSWIRE) -- EVgo Inc. (NASDAQ: EVGO) ("EVgo"), one of the nation's largest providers of public fast charging infrastructure for electric vehicles (EVs), and Regency Centers Corporation (NASDAQ: REG) ("Regency") are expanding their partnership to bring fast charging to shopping centers, with plans to add more than 400 charging stalls at Regency locations across the United States. Once complete, these new EVgo stalls are expected to help increase Regency's EV infrastructure footprint by more than 20%.

EVgo fast chargers at Mandarin Landing

A prefabricated EVgo station at Regency Group's Mandarin Landing in Jacksonville, Florida.

EVgo installed its first charger at a Regency center in 2020 and today operates over 150 stalls at Regency locations. Located in high-density markets and anchored by top grocers, Regency locations are prime places for public fast charging. Supermarkets and shopping centers rank as the top preferred charging location and roughly half of drivers who stop at a site enter the adjacent retail or food space.[1]

The new EVgo stalls are expected to be located at retail centers in metropolitan locations in Colorado, Florida, Illinois, New Jersey, New York, Pennsylvania, Texas, Virginia and other states.

"EV drivers are looking for convenient charging options where they already spend their time, like grocery-anchored shopping centers," said Scott Levitan, Executive Vice President, Growth at EVgo. "Expanding our partnership with Regency will help us meet growing customer demand while making public fast charging more accessible in the places people shop, dine and connect with their communities."

Each new EVgo site built through this partnership will feature up to 24 high-power EVgo chargers, which are capable of delivering a full charge in as little as 15 minutes, depending on the vehicle. This is an ideal fit for grocery store locations that the average American household visits 2–3 times per week[2] with an average dwell time of 23 minutes.[3]

"Expanding our EVgo partnership grows Regency's EV charging footprint and gives more drivers reliable, convenient access to fast charging at the properties where they already shop and dine," said Mark Peternell, VP of Sustainability at Regency Centers. "Increasing access to fast charging like this supports the widespread adoption of EVs and advances our broader sustainability goals."

About EVgo

EVgo (NASDAQ: EVGO) is one of the nation's leading public fast charging providers. With more than 1,200 fast charging stations across 47 states, EVgo strategically deploys localized and accessible charging infrastructure by partnering with leading businesses across the U.S., including retailers, grocery stores, restaurants, shopping centers, gas stations, rideshare operators and autonomous vehicle companies. At its dedicated Innovation Lab, EVgo performs extensive interoperability testing and has ongoing technical collaborations with leading automakers and industry partners to advance the EV charging industry and deliver a seamless charging experience.

Forward-Looking Statement

This press release contains forward-looking statements that are subject to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, but are not limited to: EVgo's plans, projections, and expectations regarding its partnership with Regency; EVgo's product capabilities, features, availability, performance, and expected benefits, including for EVgo's customers; and the speed, scope and locations of EVgo's infrastructure deployment at Regency properties. Forward-looking statements are based on EVgo's management's current assumptions, expectations, and beliefs and are not guarantees of future performance. These statements are subject to a number of risks, uncertainties, and assumptions, including those described under the heading "Risk Factors" and elsewhere in our most recent Quarterly Reports on Form 10-Q and Annual Reports on Form 10-K filed with the Securities and Exchange Commission. In light of these risks, uncertainties, and assumptions, actual results could differ materially and adversely from those anticipated or implied by the forward-looking statements. You should not rely on forward-looking statements as predictors of future results. Any forward-looking statements in this release are based on the limited information currently available to EVgo as of the date hereof, which is subject to change, and EVgo does not undertake any obligation to update these statements, even if new information becomes available in the future.
